WORK EXPERIENCE

Freelance Software and Web Developer

Students and Small Businesses | Negros Occidental

2025 – Present

- Developed websites and web applications for students and small business clients across Negros Occidental.
- Designed and implemented custom software solutions tailored to client requirements and budget.
- Conducted client consultations to gather project requirements and deliver appropriate technical solutions.
- Coordinated with clients for timely project completion and provided post-launch support and maintenance.

486-hour IT On-the-Job Training

Carlos Hilado Memorial State University | Negros Occidental

2026 (4 months)

- Diagnosed and resolved common computer hardware issues to ensure optimal performance of workstations and peripherals.
- Installed operating systems and cloned drives efficiently to support system upgrades and hardware replacements.
- Set up and configured software applications properly in accordance with user requirements and organizational standards.
- Provided technical assistance and troubleshoot user concerns to minimize downtime and maintain productivity.
